PAPER ANIMAL MASKS

Alyson Poole, Green Ridge Elementary Art Teacher
Discover the importance of animal masks around the world and the way that some artists are choosing to create these masks of old in a fresh, new way today! Paper products will be the base that we will build upon to create the essence of an animal that interests you! Bring your imagination and creative problem solving skills to make an animal mask of your own!

LAUREL BURCH INSPIRED PAINTINGS

Carol Burkarth, Artist and Owner of Spritz and Splatter
Laurel Burch was a 1960's impressionist artist who used bright colors and designs in her joyful paintings of cats, fish, butterflies and flowers. This session will involve painting animals and flowers in the Laurel Burch style.

LEARN HOW TO DRAW A PERSON!

Toni McGraw, Art Educator
You, yes, YOU can draw a person too! This art session will teach you how simple it is to draw a person. Yes, it's easy, it's quick, and you will be amazed! Watch the demonstration, then try it yourself. Create your own crowd of people, on paper, using pencil, watercolor, and/or oil pastel.

ILLUSTRATE & INK

Lyndsay Rose, Teaching Artist, Lancaster Co.
Have you ever used a rubber stamp? That is what relief printmaking is! Join us as we illustrate an animal, transfer the image onto a printing matrix, ink up, and print on as many surfaces as we can. Walk away with one of a kind prints AND your own stamp!

LANDSCAPE AND THE COLOR WHEEL

Kate McGraw, Visual Artist
Get inspired by photos of local farmland and use multiple materials to create a landscape of your choice. To take it one step further, only the primary colors will be provided, and you will have the opportunity to explore color mixing to incorporate in your landscape artwork.

BRIGHT- COLORED BOWL

Lauren Faircloth, Messiah College, Senior Art Education Major
Come create your own sculpture that looks like blown glass! Looking at Dale Chihuly's Macchia series, we will talk about

form and shape, and even watch a video of how blown glass is made! If you love bright colors, this is the class for you. You will walk away with a beautifully colorful and unique sculpture bowl!

BOTTLE LIGHT

Joan Leardi, Mechanicsburg Art Center
Make your own bottle light complete with your own designs using enamel paints. Lights and bottles will be provided and they make a nice nightstand light or decoration anywhere in your house. Battery operated lights, so no need to plug them in!

BUTTERFLY PINS

Becki Brandt & Kim Holland, Monroe Elementary Staff
Use unique materials to create realistic butterfly pins that can be pushed into walls and ceilings – similar to the ones that decorate the hallway ceiling at Monroe!
