

SCIENCE FAIR PROJECT INVITATION

Dear Parents,

Second through fifth grade students are invited to submit science projects for the upcoming Science Fair on March 6th, 2020 from 6 – 8 pm. Awards will be presented. Students may complete their science fair project independently or with a partner. Science fair packet will be emailed to all participants that provides an email address.

Guidelines:

1. Projects should be problem based. This means that their project must solve a problem (a hypothesis).
2. The final project must be on a tri-fold board (approximately 1 meter tall). The project must include all steps of the scientific method.
3. If students are partnering, parents must plan for them to work together outside of school. All work should be equally shared.
4. Projects must be the work of the student/students. Parental help is allowed and encouraged but ultimately the students must be able to present how they performed the experiment.
5. Student's name and teacher's name must be written on back of the display board.
6. Projects will set up in the gym after school the afternoon of March 6th and be ready for judging at 6 pm. Students need to be present for judging. Projects may be dropped off the morning of the science fair.

Please cut and return to classroom teacher

Students Name: _____

Email Address: _____

_____ **WILL** be submitting a science fair project

_____ **WILL NOT** be submitting a science fair project
